## Discover Greatness

10,000 students at the Historically Black Colleges and Universities began the journey to the Honda Campus All-Star Challenge National Championship Tournament (NCT) in the fall. Once campus teams were selected, the teams studied countless hours, worked together, and practiced with their teammates.

At the National Qualifying Tournaments, teams faced serious intercollegiate competition. After those tournaments, the "Great 48" teams were selected to compete at this year's NCT.

Being one of 192 students out of a field of 10,000 demonstrates that you are an achiever. You are the epitome of our theme this year, "Discover Greatness." My colleagues and I are truly looking forward to getting to know you.

Honda is proud to welcome the players, coaches, presidents, institutional reps, and volunteers to our campus. Our Team HCASC wants this to be a great experience for all attending.

Over the next few days, challenges will test you, opportunities await you, and you'll meet people who will become "friends for life."

"The Power of Dreams" is Honda's philosophy which encourages and inspires us to share our dreams, passion and make them a reality to positively affect society. Honda Campus All-Star Challenge is part of that vision and philosophy. This weekend and beyond, we challenge you to use your dreams to power your future.

We wish the best of luck to all of the teams as you seek the National Championship!
